When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

FATHER LACOMBE COUNCIL K. of C. INSTITUTED SUNDAY

Father Lacombe Council No. 2674, of the Knights of Columbus, was instituted here on Sunday, with a membership of 150, to the accompaniment of solemn ritual put on by visiting members. The day's proceedings were memorable for their entire success and will be long remembered by those who took part in them.

Beginning with High Mass in St. Anne's church, conducted by Rev. Father Rouleau, of Calgary, and concluding with a great banquet in the opera house in the evening, it was a very full day. There was a crowded attendance at the Mass and the beautiful music of the choir attracted favorable comment from the visitors.

Proceeding to the opera house, the ceremony of the first degree was put on in the morning and this was followed in the afternoon by the second and third degrees, the latter being especially emphasized by the Spokane Council, under the direction of J. F. Ryan, state deputy.

In the evening the opera house was packed for the banquet. Music by the Knights of Rhythm and splendid solos by Mrs. L. L. Morgan, of Blairmore, and Harry Drew, of Pincher Creek, accompanied the repast. J. E. Gillis, grand knight, presided.

The following toasts were honored by splendid oratory: The Pope; The King (Ecce Sacerdos Magnus, God Save the King); The Church, Rev. Thomas H. Green, Calgary; Our Country, Rev. R. J. Donovan, Bellevue; Our Order, A. C. Saunders, district deputy, Lethbridge; Our Visitors; proposed by F. O. McKenna, Pincher Creek, and responded to by Rev. Father Rouleau, Calgary; J. F. Rudnicki and B. Caulfield, Fernie, and Mrs. Madden and M. C. Costello, Calgary; New Members, proposed by Rev. M. A. Harrington, Blairmore, and responded to by Raoul Green, of Blairmore.

The officers of Father Lacombe Council No. 2674 are: Grand knight, J. E. Gillis, Blairmore; deputy grand knight, F. O. McKenna, Pincher Creek; chaplain, Rev. R. J. Donovan, Bellevue; lecturer, Rev. M. A. Harrington, Blairmore; chancellor, S. J. Lacey, Bellevue; financial secretary, Mark Levangie, Blairmore; treasurer, Joseph V. McDougall, Blairmore; advocate, Arthur J. Kelly, Blairmore; recorder, Joseph J. McIntyre, Bellevue; inner guard, C. Collins, Pincher Creek; outer guard, J. Kaulka, Coleman; warden, M. P. Cotte, Pincher Creek; trustees: C. J. Thompson, Blairmore; J. F. Smith, Lethbridge, and F. Pelletier, Pincher Creek.

Monday evening a brilliant ball was held at the opera house, when again a thronged attendance of the knights and their ladies in the gayly decorated building, enjoyed a splendid time to the best of music. Two days which will long be remembered were thus brought to a fitting conclusion. —Blairmore correspondent to The Calgary Albertan.

CROWS' NEST PASS FOOTBALL LEAGUE

The reorganization of the Crows' Nest Pass Football League was effected at a meeting held at Coleman. The officers are as follows: president, Jack Brooks, of Bellevue; secretary, Peter Smith, of Coleman; club representatives, J. Laughlin and J. Brooks, Bellevue; D. Gardiner and J. Clark, Hillcrest; J. Yates and P. Smith, Coleman. A schedule for the season is being arranged.

Inspector Fisher, recently appointed to the charge of the Lethbridge division of the Alberta Provincial Police, died on Tuesday evening, following a heart attack. The inspector moved from Red Deer a few weeks ago, to be succeeded by Sergt. Duncan, of Blairmore.

The Right Rev. L. Ralph Sherman, D.D., will visit Blairmore on Wednesday, May 30th. He will preach at Evensong, to be held at 6.45 p.m., in St. Luke's church. From there he will go to Coleman and confirm four candidates at 8.30 p.m. After the service, a short social time will be held in the parish hall, to which all Anglicans in Blairmore are given a cordial invitation.

MIKE KOZIEC DIES FROM MINE INJURIES

Mike Koziec, employed in the mines of the International Coal & Coke Co., at Coleman, died on Thursday last from injuries sustained in the mine the day previous, and the remains were held to rest at Coleman on Sunday afternoon.

The inquest into the death of Mike Koziec concluded at Coleman before Coroner A. M. Morrison on Saturday last, when the following verdict was returned by the jury: "That Mike Koziec came to his death at 10.30 a.m. on Thursday, the 17th day of May, in the Coleman miners' hospital at Coleman, Alberta, due to shock, head and leg injuries caused by a fall of cap rock in room 120, B. Level, International Coal & Coke Co.'s mine, Coleman, on the 16th, approximately at 1 p.m. No blame attached to anyone. The jury concurs with the mine inspector's suggestion regarding First Aid stations being placed in the mines."

The following comprised the jury: J. Rushton, foreman; J. Woods, J. Lote, W. Graham, J. Atkinson, S. Campbell.

Koziec leaves a wife and four children, residing in Poland. He had been a resident of Canada for about fifteen years.

SERG. KEITH DUNCAN RECEIVES PROMOTION

Following the transfer of Inspector Fisher from Red Deer to Lethbridge, Sergt. Keith Duncan, of the Blairmore detachment of the Alberta Provincial Police, received the appointment to Red Deer, with the rank of sub-inspector.

Sub-Inspector Duncan left for Red Deer by Tuesday's local and will be joined there in a few weeks by Mrs. Duncan and children.

Sergt. Jones, of Lethbridge, has been appointed to succeed Sergt. Duncan here and will assume charge on June the 1st.

Sergt. Jones is very well known in this district, having for a time served with the R.N.W.M.P., during which term of service he was married to Miss Disney, eldest daughter of the late Edmund Disney, J.P., of Coleman.

Teddie Barnes, who had been a resident of Coleman for about twenty years, left on Tuesday last for a visit to his mother at Leeds, Yorkshire, England.

Word has been received of the death at Three Rivers, Quebec, of Mr. M. Diamond, former farmer in the Cowley district. He is survived by his wife, five sons and two daughters.

Eternal Vigilance Is the Price Of Safety

Because of the appalling loss of life through motor car accidents, Governments and municipalities are enacting ever more stringent laws governing the use of highways and the operation of automobiles. Laws regulating the speed of driving, governing the use of headlights, compelling cars to come to a full stop before proceeding to cross railway tracks have been passed, while signalling devices, signs, guard rails at curves, embankments, and other danger spots are erected, all with a view to protecting the public.

For the same reason laws are passed and regulations enforced governing the management of factories, mines, operation of railways and ships, laying down conditions under which women and girls may be employed, and stipulating a hundred and one things which must be done to safeguard workers in all departments of industrial life.

According to figures, the correctness of which are vouched for by the Midwest Safety Conference, as reported in a San Francisco paper, there were 24,000 deaths in the United States last year through traffic accidents, and 23,000 deaths through industrial accidents almost all of which were preventable.

But it will be a surprise to many to learn that accidents occurring in the homes of the United States take an even greater toll of life than did traffic accidents, or accidents in industry. Avoidable accidents resulting in death in United States homes in 1927, numbered 27,000, and, according to the report already referred to, "the bathtub and the stepladder were among the deadliest adjuncts of domestic life, and the two combined contributed a large proportion of these 27,000 home fatalities."

Traffic regulations and industrial safety laws are the business of the public as well as of the individual; hence the interest displayed by all governmental authority. Because they are susceptible of public regulation the problem they present, and which fills the newspapers today, should be easier than that of the household fatalities. As the San Francisco paper says, "It is not possible to put the equivalent of a traffic cop into every home to supervise the hanging of draperies, the dusting of walls and the training of the climbing vines. Nor would it be desirable even were it possible to have a uniformed public official handling careless people in and out of slippery bathtubs. The law cannot direct the turning on and off of gas cocks. It cannot keep matches out of the reach of children. It cannot be the keeper of the family medicine chest. It cannot make itself the custodian of the household arsenal and see that unloaded guns are always unloaded. It cannot prevent the starting of stove fires with kerosene, or the use of gasoline near a lighted lamp or a burning fire."

These and a multitude of other vigilances rest solely with the individual. Until the individual exercises the necessary caution the lurking dangers of the household will continue to take their toll.

Throughout the quiet Canadian west not a week passes but the newspapers tell the terrible story of a calamity in some home, resulting in death and maiming for life, the direct result of downright carelessness. A destructive prairie or forest fire rages because someone neglected to put out a camp fire, or dropped a match, or started burning straw or rubbish without taking necessary precautions. An explosion wrecks a home and takes a toll of life because gasoline was left where it should not have been. A child drinks a cup of tea in mistake for water, and dies or is crippled for life. And so on, and so on.

And all the laws, and regulations, and prohibitions that all the Parliaments, and Legislatures, and Municipal Councils in the country may pass cannot stop these tragedies. In the forces, slung of the day "It is up to the individual" to exercise caution, to be vigilant, only so can the daily loss of life through these accidents in the home, in industry, and on the highways of our country be reduced and practically eliminated. Ninety-nine out of every one hundred of such accidents are preventable. It is for the people to realize this. When they do the accidents will cease; until they do realize it and govern themselves accordingly, sorrow, pain and loss will continue to be a permanent visitor in our midst.

Named After Lindbergh

Canadian Island and Station Will Bear Aviator's Name

Colonel Lindbergh will have the honor of having an island in British Columbia and a station in Alberta named after him. Paul Lambert, of New York, owns a small island in Seattle Bay, near Nanaimo, B.C., and asked the Geographic Boards of British Columbia and Canada to approve of the name Lindbergh for it. Neither board has objected. They claim as private property he can call it what he likes, as long as it doesn't interfere with present names.

The Dominion Geographic Board received an application from the Canadian National at Winnipeg to approve naming a railway station in Alberta after the famous aviator. The board has given approval.

If a thing must be done there is no time like the present for doing it.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkaline, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Secured a Homestead

Two Brothers Maintain Long and Lonely Vigil For This Purpose

Determined to file on a homestead near his father's and brother's at Loyalist, Alberta, when the cancelled homestead rights were thrown open to the public at the Dominion Lands Office in Calgary, Cyrus Buxton, 18 years of age, assisted by his brother Paul, 24, kept first place outside the building for an entire week prior to the opening. A blanket was drawn across a corner of the building within a few feet of the entrance and here the brothers slept during their six hours shifts. They were successful in securing the desired homestead.

Minard's Liniment for falling hair.

Nag—Did you hear of my father's death? Do you know, he left 550,000? Tag—That's nothing. My grandfather left the earth."

Our Stomach

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

World's Grain Congress

Will Mark Fiftieth Anniversary Of Coming Of The Railway and Birth Of Prairie Agriculture

The first world's grain congress scheduled for Regina, in 1928, will mark the 50th anniversary of the arrival of the Canadian Pacific Railway and the birth of prairie agriculture, outside of a comparatively small earlier settlement in Manitoba. In outlining steps preliminary to the summoning of the congress, Hon. W. R. Motherwell, Federal Minister of Agriculture, announced: "The proposal to hold a world's grain congress in Canada has been quietly discussed and canvassed by a few amateurs in the west for the past two or three years. In the meantime, the pronounced success of the world's poultry congress has stimulated and crystallized the proposed grain congress into possibility and reality."

NEW STRENGTH FOR ALL WEAK GIRLS

Comes From the Rich, Red Blood Made By Dr. Williams' Pink Pills

There must be no guesswork in the treatment of pale, anemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anemia—the medical name for poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from a fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, St. Lawrence, Ont., praises this medicine for restoring her daughter's health. She says:—"When my daughter was nine years old she was so weak and thin that we feared we would lose her. She was very nervous and going to school seemed too much for her. Often she would have to stay at home for days at a time. She had a fever, and the doctor's treatment did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. She was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong, healthy girl. Since then, if a tone has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Wireless Saved the Situation

Egypt Aids To Greet Afghan ruler With His National Anthem

A very embarrassing situation was averted and "Egypt" greeted King Amanullah and his queen with proper ceremony upon their arrival from Bombay, thanks to wireless.

A frantic message picked up by the P. and O. liner Rajputana, from an Egyptian official, bemoaning the fact that Egypt was not acquainted with the Afghan national anthem. The purser had it wireless to Port Said, where it was deciphered—note for note—and upon the arrival of the royal pair they were greeted with a perfect rendition of their anthem.

Cheapest Of All Oils.—Considering the quality of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Fort Vermilion Wheat

Wheat, Grown Close To Arctic Circle Weighs 64 lbs. To The Bushel

Wheat from Fort Vermilion, 250 miles north of Peace River, weighed 64 pounds to the bushel and graded No. 2 without docking. It is the Alberta wheat pool by James McGraw, a farmer in that district. Although Fort Vermilion is close to the Arctic circle, wheat growing is not new in that area. In 1875, wheat grown at that point won the championship at the Centennial Exhibition at Philadelphia.

Ideal Tourist Camp Of Calgary

The Calgary Automobile Club is planning to equip and operate what they claim will be the most modern automobile tourist camp in Western Canada. The camp will be well lighted and equipped with gas for cooking, water, shower baths, car shelters and other conveniences for the accommodations of motor tourists.

Insist on Minard's Liniment—accept no other.

PILES are quickly Soothed & Healed by Zam-Buk

British-American Friendship

Chas. M. Schwab Says The British Are The Most Sincere People In The World

In an appeal to abolish the "hands across the sea" sentiment between Great Britain and the United States, Charles M. Schwab said at an English-speaking union luncheon that the two nations are knit together not only sentimentally but actually, and that a large factor in this union is the steel industries of the two countries. He said that Great Britain was the mother of the steel industry, but that the great British processes, including the Bessemer process, were developed in America.

"I consider the British the sportiest, truest, most sincere people in the world," Mr. Schwab said. "Nobody knows what they have suffered from the great war, and what they are now doing to get back on their feet, I am proud of my British friendship. I have received more honor from Great Britain than from my own country."

"I am not disturbed by the boastful, flamboyant Americans who falsely represent America abroad, and I am proud of my British friendship. I have received more honor from Great Britain than from my own country."

First Thing Man Exploited

In 1390 B.C. Hittites Had Laws Governing Bees

The bee was probably the first creature whose labors were exploited by mankind.

In the Hittite code of laws, dated 1300 B.C., punishments for the theft of bees and hives were mentioned. About 4000 B.C. the bee was adopted as the symbol for the King of Lower Egypt. Hieroglyphic bees were found from the First Dynasty down to Roman times, a period of some 4,000 years.

Bee-keeping was regularly practiced in Egypt in 2600 B.C.; reliefs attest showing the conformation of the hives—mud structures placed one over the other—and the men engaged in pouring out the honey and sealing jars. But thousands of years before this the wild honey was extracted from rocks and trees. It was only in comparatively recent times, some six or seven thousand years ago, that it occurred to man to reduce the bee to slavery.

Miller's Worm Powders not only make the infatigable system untenable but are also a powerful purgative on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other ailments. Children thrive upon them and no matter what their worried stomachs may be, in their will show improvement as soon as the treatment begins.

Increase In Tobacco Production

Production of tobacco in Canada in 1927 totalled 43,916,700 pounds valued at \$2,112,276, an increase over 1926 of 15,092,700 pounds in production, and \$1,732,798 in value. Last year 44,028 acres were sown to tobacco in Canada or 10,672 acres more than the previous year. Ontario planted 33,850 acres, Quebec 10,018 acres, and British Columbia 360 acres. The average yield per acre was 997 pounds.

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that good Lydia E. Pinkham's medicine and I was so sick that I could not work at all and could not see on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and I am telling all my friends how good it is and I will answer all letters I get from women."

Mrs. MARY SCHULTZ, Grainland, Sask.

Preparing For Trial Flights

Luxurious British Airship Built For London-New York Traffic

From New York to London in 48 hours, and with all the comforts of the most luxurious ocean liner!

This may sound like a dream of Jules Verne but it will be accomplished this year by the R-100, a British airship, built under direction of Commander C. Dennis Burney, M.P.

The Burney ship, of 5,000,000 cubic feet displacement, has progressed so far that it is expected to be ready for trial flights in July.

American capital has become interested in the R-100 and a Detroit group has taken an option on a substantial interest in the Burney Company with a view of establishing a fleet of six 9,000,000 cubic feet airships built on the Burney designs and for use in London-New York traffic.

Half of these ships will be built in the United States and half in England with the operating company owned jointly by British and American capital.

The R-100 will carry 100 passengers and ten tons of express freight. It will be able to make the eastward passage in 48 hours and the trip from London to New York via the Azores in 80 hours. The southern route on the westward passage is contemplated to avoid head winds.

If plans for the trans-Atlantic airship company materialize, the R-100 will be used as an experimental ship, followed by the larger dirigibles with capacities for 140 passengers and 20 tons of freight.

The R-100 has been furnished, the steamers are completed and rugs have already been laid in the dining salon.

Most Unusual Job

Going Through Hotel Waste Paper Baskets To Retrieve Lost Articles

Waste-paper baskets are sifting in an unusual job, but one that is highly important in large hotels. Most lost articles are found in waste-paper baskets, and in some hotels there are people who spend most of their working hours going through the vast quantities of papers and cast-off articles placed in waste-paper baskets by guests. Many thousands of dollars' worth of jewelry, valuable papers and such things as theatre tickets, railroad and steamship tickets and pieces of wearing apparel are discovered every month. One of the most expensive amethysts in the world, owned by a guest who wears it, was found in a waste-paper basket. A watch was picked up in waste-basket rubbish less than a month ago. Recently, too, there were two \$100 bills found in the trash that was sent down from a guest room.

As a verminicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

First Elevator In Georgia

Another Western Importation Added To Turkey's New Capital

The first elevator has been placed in one of the buildings of Turkey's new capital.

Thus another red-letter day has been added to the series commemorating the construction of the first new house in the erstwhile village, the first turning of the tap of the new water system, the first puff of heat from the first steam radiator and the first switching on of electricity.

But the elevator, latest importation from the West, does no elevating as yet, for the Minister of Hygiene in whose new headquarters it has been installed has not yet been able to find any one in Ankara capable of testing and setting it in motion.

Preserves Water Supply

Forests are nature's preservers of water supply. The forest floor, being porous, retains the maximum amount of rain. This physical condition combined with the mechanical obstructions of tree roots, retards the rapidity of run-off. Excess water is released gradually and the equilibrium of stream flow is preserved. In like manner the melting of snow in the springtime is delayed by the lower temperature and shade in the forest, so that the danger of floods is lessened.

Landlady: "You have been here three months and have never paid any rent."

Student: "But you said it would be like home here!"

Landlady: "Well, I hope it is."

Student: "At home I never paid any rent."

Thrift is a state of mind. A man buys a \$500 car as an example when he wants a \$5,000 car and can afford no car at all.

WRIGLEYS

Always have the magic WRIGLEY package in your pocket.

Soothes nerves, allays thirst, aids digestion.

Are Aids To Scientists

Rats and Monkeys Contribute To Knowledge Of Dietetics

Rats and monkeys are, in their humble way, contributing much to the knowledge of scientists regarding dietetics, says an article in *Tit-Bits*.

At the famous Lister Institute in London, it is to be found a modern "diet pipe" in the person of Miss Henderson Smith, who has charge of some 500 rats of all ages and sizes, which occupy a regular nursery.

People come from all over the world to see Miss Henderson's charges. "They come with bundles of honor at the thought of so many 'beasties' in so small a space, but they go away charmed with the little creatures."

You must not imagine that these are ordinary rats. They are nearly all black and white, though some are entirely white with pink eyes. They are tame and friendly, and if they do occasionally give a little bite—it is kindly meant.

The rats and ten monkeys nearby are doing extremely important work. They are teaching scientists all about the mystery of the all-important vitamins and are contributing daily to the knowledge of dietetics.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment, the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Post Office Has Big Job

The Canadian Post Office Department delivered over 600,000,000 parcels, 350,000,000 newspapers, 400,000,000 circulars, and 400,000,000 parcels annually in Canada, according to a report from the Department. This delivery is made through about 12,440 post offices, and over 200,000 rural mail boxes extending over an area of nearly 3,700,000 square miles.

Don't Make a Toy Out of Baby's Babies Have Nerves

By RUTH BRITAIN

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package, so you'll get genuine Castoria. There are many imitations.

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour at a time. Too much handling, too much tickling, caused to laugh or even scream, will sometimes result in vomiting and irritability, gas, colic, diarrhoea, constipation, nervousness, crying or sleeplessness. Restlessness, crying and sleeplessness are signs of nervousness. Gas, colic, diarrhoea, constipation, nervousness, crying or sleeplessness are signs of nervousness. Gas, colic, diarrhoea, constipation, nervousness, crying or sleeplessness are signs of nervousness.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package, so you'll get genuine Castoria. There are many imitations.

MUCH DEBATE OVER REVISED PRAYER BOOK

London.—Debate on the new revised prayer book probably will not begin in the House of Commons before the end of June, but controversy over the changes is raging.

The prayer book measure passed the first preliminary when the ecclesiastical committee of both houses voted 20 to 3 to allow it to proceed. The legislative committee must now approve it before it is submitted to the House.

The principal contenders in the controversy, so far, are Sir William Joynson-Hicks, Home Secretary, who opposes the revision, and the Right Rev. Arthur Foley Winnington-Ingram, bishop of London, who supports it.

The bishop precipitated the argument by circulating London Members of Parliament, urging them to support the measure. The Home Secretary announced that passage of the measure would be far more grievously regarded throughout the country than its rejection would be.

Some Conservative Members of Parliament questioned the propriety of the Home Secretary's action in identifying himself so prominently with the opposition since he was a cabinet minister.

The bishop, in his rejoinder, asked if the opponents of the measure were trying to drive the Anglo-Catholics out of the Church of England.

"No one," he said, "wants to drive out those who are ultra-Protestant in their doctrine. Cannot the people on your side be generous enough not only to keep within the Church of England, but to make nappy in the Church of England those to whose work and devotion we owe so much?" "Your present policy, however, can only lead to the disruption of the Church of England, and this, I feel sure, no one would deplore more than yourself."

Discuss Exchange Of Lines

Co-operation Between Phone and Telegraph Service Possible In Alberta.

Edmonton.—Ways and means for working out an exchange of facilities between the government telephone system and the telegraph companies are at present under consideration and a conference in connection with the matter was held between W. D. Robb, vice-president of the Canadian National Railways, and R. B. Baxter, Deputy Minister of Telephones.

Mr. Robb is referring the question as thus opened to the head office of the Canadian National Railway Telegraphs and it is likely that a working agreement will result.

Under the proposed plan the wires of the provincial telephone system will be made use of by the telegraph company in certain parts of the province for the transmission of telegraphic messages, while the province will use telegraph pole lines for stringing its wires in other places by way of exchange. A similar arrangement in some parts of the province is already in operation between the province and the Canadian Pacific Railway Telegraphs.

Exports Cut In April

Imports Were Higher and Income Tax Revenue Increased

Ottawa.—Canadian exports in April were lower in volume than a year ago, while imports were higher. Revenue from customs and excise were lower by nearly a million dollars in April last than in April, 1927. Revenue from income tax was nearly two million dollars more last month than in April a year ago, according to the monthly statement issued by the Department of National Revenue.

To Study B.C. System

Winnipeg.—Major C. K. Newcombe, chairman of the workmen's compensation board which will handle the administration of old age pensions in Manitoba, will leave for Vancouver to study methods used by the coast province in handling the pension system. To date, 1,500 persons have filed applications for pensions in Manitoba, and this number is expected to be doubled shortly.

Sending Plane To States

Osgo.—The plane in which Captain George H. Wilkins and Carl R. Eielson flew from Alaska to Spitzbergen, has left Tromsø aboard a ship for Bergen. It will eventually be sent to America on a Norwegian liner.

W. N. U. 1734

Might Make Separate Pact

British Dominions Could Deal Directly With Washington On Peace Plan

Washington.—The possibility that the British Dominions may make separate treaties with Washington to outlast war is being discussed here.

Secretary of State Kellogg, whose proposals for treaties between the great powers to disavow war as an instrument of national policy have been tentatively approved by Britain, said that he had no official intimation from London that any reservation would be demanded as indicated in news dispatches. He agreed that if any difference of opinion existed as to the exact basis on which Britain would negotiate with Washington, they probably were between Great Britain and her Dominions. He had been informed that London was taking up the whole question with the Dominions before replying to the U.S. Secretary of State's overtures.

Asked if the Dominions would have separate treaties, Secretary Kellogg said that was a matter for the Dominions themselves to decide, in consultation with the British government. In a general way the opinion is expressed here that it would not be inconsistent with the policy of Canada in recent years if Ottawa elected to deal separately with Washington when it comes to a declaration of policy on the arbitration of disputes and the outlawing of war.

Salary Increase For Judges Recommended

House Will Have To Approve Report Of Committee

Ottawa.—An increase in salary to Canadian judges has been approved by the special parliamentary committee. The committee's report will, it is stated, recommend an increase of \$2,000 to county court judges; the same amount to provincial court judges, and \$3,000 increase for judges of the supreme court of Canada.

The committee held its sessions in camera. It is understood that the report was only adopted on the casting vote of the chairman.

The committee's recommendation will have to receive the approval of the House.

An increase in salary of \$2,000 per annum is also recommended for judges of the exchequer court of Canada.

The conclusion reached by the committee was that the remuneration paid to judges in Canada was inadequate and should be increased.

Willington Opens

Institute For Blind

New Building Provides Treatment For Sightless In West

Winnipeg.—The opening of the new building of the Canadian National Institute for the Blind at Winnipeg will be the means of not only comforting and supporting hundreds of those now afflicted, but of saving the sight of at least half of those in Saskatchewan and Manitoba whose vision would otherwise be doomed.

This was the repeated statement of successive speakers representative of the institute when His Excellency Viscount Willington, governor-general of Canada, officially declared the new building open.

Amendment Defeated

Anti-Dumping Move Lost By Large Majority In House

Ottawa.—A Conservative anti-dumping amendment to supply was defeated in the House by a vote of 110 to 56. The amendment was moved by R. K. Anderson (Conservative, Halifax), and was that the government should take necessary action effectively to control the importation into Canada of natural products of a class or kind produced in Canada under conditions that operate to the detriment of the Canadian producers.

A. W. Neill (Independent, Comox-Alberta), voted with the Conservatives, while the Progressives and U.F.A. voted with the government.

Explorer Reported Safe

Berlin, Germany.—Reports received here from Leh, Northern India, says the German explorer, Wilhelm Filchauer, the British missionary, Mat Wilson, and the American missionary, Playmire, arrived safely there. Filchauer, in 1920, had been reported murdered together with several members of his Tibetan expedition.

May Be Envoy To Canada

Washington.—It is rumored here in diplomatic circles that Sotatsu Sawada, counselor to the Japanese embassy here, will be the first Japanese minister to Ottawa. The Japanese embassy declines to comment on the rumor.

Farm Workers Scarce

Demand In Northern Alberta Exceeds Supply Is Reported

Winnipeg.—The influx of immigrants this season has been well covered, and in northern Alberta there is scarcely enough farm help to meet the demands, according to J. S. McGowan, western manager of the colonization department of the Canadian National railways who returned here from a tour of inspection. He estimated that well over a million acres of new land will be cleared and brought under the plow this year in northern Alberta and northern Saskatchewan.

New immigrants, he said, were being used extensively in this work.

No Opposition From British

But Chinese Troops Must Not Enter Legation At Peking

London.—The British government has no intention to offer any opposition to the advance of the Chinese Nationalist armies on Peking, Godfrey Locker-Lampson, under secretary for foreign affairs told the House of Commons.

Mr. Locker-Lampson said the Government's only care was to see that these troops did not enter the legation quarters.

ADVOCATE PLAN OF INSURANCE FOR UNEMPLOYED

Ottawa.—The House of Commons committee on industrial and international relations endorsed the principle of unemployment insurance based on compulsory contributions by the state, the employers and the employee in its report tabled in the House.

The report states that the necessity for providing some method of unemployment insurance, "will inevitably have to be dealt with before long as a solution in part, of the industrial problems of the present day."

The report indicates that the success of any plan of unemployment insurance depends upon several of the provinces being willing to act simultaneously.

It is the opinion that the matter should be referred to the provinces to find out the extent to which they will be willing to adopt legislation respecting unemployment insurance and to what extent they will be willing to go.

The committee experienced difficulty in arriving at approximate costs of unemployment insurance because there was no definite method of ascertaining unemployment at any given point for any length of time.

The committee recommends: "That the government immediately devise some means whereby the amount of unemployment over a period of a year could be reasonably calculated."

The committee also recommends that the government secure from Great Britain advice on the subject and that the subject be dealt with further by the committee at the next session of parliament.

Formed Permanent Organization

Dr. C. M. Hincks, medical director for mental hygiene, was elected president of the Canadian conference of social work held in Montreal. Due to the success of this first conference a permanent organization was formed with Dr. Hincks at its head.

Ask Higher Tariff On Dairy Products

Findings Of U.S. Commission Not Yet Submitted To President

Washington.—The tariff commission's recommendation on milk and cream duties has not yet been sent to the president. The Canadian Press learned two weeks ago that the findings of the commission which recently investigated the cost of production in Canadian dairies, were ready for the White House, and it was understood that an increase in the duties would be recommended.

The farmers' co-operatives, who claim to represent 981,000 farmers in this country, asked for upward revision of the tariff on practically all products of the farm, except grain on which they already have a prohibitive tariff. In most cases they ask, in their resolution addressed to Congress, about 100 per cent. increase in the existing duties.

Discusses Antarctic Plans

Wilkins Hopes To Locate Suitable Base For Meteorological Station

Oslo, Norway.—Captain George H. Wilkins, commenting on Spitzbergen's place in the future of Arctic affairs, said: "It likely will be the half-way house between Chicago and China."

Wilkins said, in discussing his plans for an Antarctic flight, that he hoped to make an aerial camera survey of the coasts of the Ross Sea to Graham's Land, for the purpose of locating a suitable base for a meteorological station. Such a station would be of great importance in forecasting the weather for Australia, South America and Southern California.

Will Not Resign

Bucharest.—Premier Bratianu will tell the Rumanian parliament that the cabinet has no intention of resigning or heading off of the peasants' demands. It is learned from semi-official quarters.

TWO IS COMPANY

Rolf Hansen and Anna Augusten, of Oslo, immigrants, were married in the Canadian National Railway Colonization Office by Rev. T. J. Langley, of the Norwegian Lutheran Church, on their arrival in Winnipeg. They desired to face their new life in Canada as man and wife rather than as separate. They will go on a farm near Birch Hills, Sask.

File Appeals In Libel Suit

Defendant In Curcio Action Claims New Evidence Discovered

Toronto.—Appeals from the verdict of the special jury at the Cobourg assizes last month awarding Sir Arthur Curcio \$50,000 damages in his libel action against W. T. R. Preston and F. W. Wilson, of Port Hope, were filed recently. Mr. Preston and Mr. Wilson were not accompanied by counsel when they visited Osgoode Hall to file the appeal.

One of the chief grounds of Mr. Preston's appeal is contained in a statement that new evidence has been discovered. He claims that an order was issued to the respective units of the Canadian corps about 4:30 p.m., November 10, 1918, that operations would be concluded and hostilities cease at 11 o'clock on the morning of November 11.

Other grounds include the assertion that the judge mis-directed and non-directed the jury, that certain evidence was erroneously excluded, and that the judgment was contrary to the evidence.

Mr. Preston and Mr. Wilson filed separate notices of appeal.

Staff Is Kept Busy

Requests For Returns By House Members Are Numerous

Ottawa.—Returns requested by members of the House of Commons are so numerous and voluminous that some of the Government departments are having difficulty in keeping pace with the demand.

This was stated in the House of Commons by Hon. J. A. Robb, Minister of Finance. Mr. Robb informed the members that Government departments stated that the requests from the House were adding materially to their work. Some of them declared that they must either have more time to get out the returns or more help to do the work.

Mr. Robb made this statement in explaining why it took some time to furnish certain returns requested by members.

DID NOT NAME MR. McMURRAY SAYS HON. FORKE

Ottawa.—Emphatic denial of any knowledge that Hon. E. J. McMurray, former Solicitor-General, had trafficked in special immigration permits was made at the parliamentary immigration inquiry by Hon. Robert Forke, Minister of Immigration.

"I can state emphatically that I did not make any of the statements which Mr. Coldwell says I made about Mr. McMurray," Mr. Forke declared, in referring to the statement by Ald. M. J. Coldwell, of Regina, that Mr. Forke had named Mr. McMurray in this connection.

"Mr. McMurray's election was in 1925, two years before I came into the department," Mr. Forke continued, "and I knew nothing about Mr. McMurray's transactions with the department, if any took place, and since I came into the department I have had no dealings with Mr. McMurray, directly or indirectly."

"Regarding Mr. Coldwell's statement about my telling him I had checked up the records of the department regarding the number of permits issued by my predecessors, and that I said I wrote my predecessor, and that he wrote his predecessor, I want to say positively, that if Mr. Coldwell got this information at all, he did not get it from me," Mr. Forke continued.

"At no time did I ever examine or check up the previous records of the department in regard to the number of permits issued by my predecessors. I have no knowledge of the number of permits issued by them, and I did not write to any predecessor in connection with the number of permits which had been issued."

Hon. R. J. Manion, (Conservative, Fort William), was given permission at the outset of the sitting to make a statement in respect to the casual mention of his name by Ald. Coldwell.

"I wish to state emphatically that in the time I was acting minister of immigration in July, 1926, I personally issued no permits to anyone and no permits were illegally or irregularly issued to anyone," Dr. Manion declared.

"In fact no permits of any kind were issued which were not wholly within the law and the regulations."

Dr. Manion emphatically denied that he had communicated at any time by word or letter with Mr. Forke regarding the immigration permits. "He felt that Mr. Forke would agree with him in this statement."

REQUEST IS MADE FOR INCREASED TARIFF ON SUGAR

Ottawa.—For the second time the application of the Dominion Sugar Company, of Chatham, Ont., for upward revision of the tariff on refined sugar was before the tariff advisory board.

The application is being heard in conjunction with a request from W. M. Thrasher, Saskatoon, for downward revision of the tariff on sugar. Mr. Thrasher also asks for the abolition of the Dutch standard.

On behalf of the Dominion Sugar Company, A. V. McIntyre stated there was a loss of 7 per cent.

Chairman W. H. Moore questioned A. V. McIntyre of the St. Lawrence Sugar Refining Company, supporting the Dominion Sugar Company's application, as to what was the cost of sugar refining in Canada. Mr. Stewart was doubtful if this information could be obtained. Chairman Moore thought, however, that as similar data was obtainable in the United States, it should be obtainable in Canada.

Mr. McIntyre asked the board to grant protection of one cent per pound on refined sugar to put the industry on a sound basis. This protection, continued Mr. McIntyre, would ensure a substantial increase in Canadian production and good prices for Canada's sugar farmers would also, be declared, be ensured a fair price.

Premier May Go To Geneva

Suggestion Made That Premier King Attend Next Session Of League

Of Nations

Ottawa.—A suggestion that Premier Mackenzie King attend the next assembly of the League of Nations, has been endorsed by the central executive of the society in Canada.

The resolution, moved by Senator Belmont, was as follows:

"That the suggestion by Sir Herbert Ames to the effect that it was most desirable that the Prime Minister, Right Hon. W. L. Mackenzie King, attend the next assembly of the League at Geneva, and sit at the council meeting as Canada's representative, has the cordial endorsement of the society, and that the general secretary be instructed to send a copy of this resolution to the Prime Minister, and to express the hope that he may find it possible to act in accordance with it."

Radium Exempted From Duty

Action Of British Treasury Will Greatly Relieve Hospitals

London.—The British treasury has decided to exempt all radium compounds from customs duty. The concession will greatly relieve hospitals who are experiencing serious difficulties in obtaining supplies owing to the enormous cost. The government in January, last year, imposed a duty of 33-1-3 per cent. on all radium.

Acquire More B.C. Land

Sardis, B.C.—The John I. Haas Lumber Company, of Sardis, the town has 100 acres of land in hope at Sardis, B.C., recently acquired additional 80 acres just south of its present holdings, which will be trekked during the coming season. There were approximately 750 tons of hops grown in British Columbia last year, practically all of which have been shipped.

To Tighten Up Liquor Law

Toronto.—Ontario's liquor control act is to have its teeth sharpened, it is understood, by the introduction of the padlock system of dealing with erring hotel and resort proprietors. Such a system cannot be set up under the law as its own standards and consequently special legislation will be required. This legislation, it is unofficially reported, will be brought down at the next session of the House.

Sending Observers To Geneva

Washington.—While the United States has declined an invitation to participate in the eleventh international labor conference at Geneva beginning September 30, it is learned that both the United States government and the American Federation of Labor will send unofficial observers to watch proceedings.

Railway Manager Arrested

Warsaw, Poland.—Police arrested Stanislas Turek, assistant manager of the railway administration, and three other men, charged with selling secret plans for Polish railway production in case of war to Moscow. The men also are accused of betraying secrets of Polish airplane manufacture.

COOL AND FRAGRANT

Save the Valuable
"POKER HANDS"

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XXIV—Continued.

Then he exalted war and military life. It developed the best in a man, and at this the Major beat his breast, directing his audience to that storehouse of accumulated virtues. Then he appealed to the young men to "get into the game." He painted the glory of it, the freedom of it; the army was the place where a man was a man. The nation's hero was the warrior—mollycoddies had no place in the world, especially with women. There was truth in the old song yet:

"If a lad a lass would marry."

He must learn a gun to carry."

Then in a lighter vein the gallant Major hinted at the charm of the French girls and how they admired the Canadians. His manner indicated that but for the presence of the ladies he could tell more.

While he was speaking, Pte. Crowe's hands were never still, nor did his lips cease from trembling.

The Major then called for recruits.

A Reliable Aniseptic.

Make sure no infection of cuts and wounds takes place, by applying Minard's Liniment.

HERCULES

PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress them.

Hercules—in three grades, x, xx, xxx—is tested and proven wind proof and damp proof. A little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the most precious treasures of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

Appleford Paper Products
HAMILTON, CANADA

Major was a prince of story-tellers. "Hay, boys, did you hear this one? One of the boys who had been on leave—

"Hours of laughter followed, then more beer. 'Too much hard liquor is bad,' laughed the Major, 'but too much beer is just right. No danger of being pinched for being noisy—we have both the proprietor and the policeman. Now, listen to this. There was a French girl—

At one o'clock the party broke up. The Major had secured six names. He decided the next morning to let Private Crowe go back to the City. The kid was all right, but he lacked "pop." This was a job for a rest home, and after all, the best little recruiter apart from himself, if it ever could be considered from himself, was the amber-colored bottle. It gave just the proper warmth and glow.

Jack made his journey around by Edmonton to Eagle Mine, arriving there on the first day of February. There had been no reply to his wire. He stepped off the train with a strangely beating heart. Helmi would be there, surely, but the platform was almost bare. Not a person whom he knew did he see as he hurried across the street and over to his own house.

The door was not locked, and he went in. A strange scene met his eyes—dirty dishes on the table, the remains of a slovenly meal, ashes from cigars on the plates; the bed showing that it had been slept in; the coffee pot was on the stove. The floor had been tramped by muddy feet and spat upon by tobacco chuffs, and a forgotten pipe was on the windowsill. The air was heavy with tobacco smoke and the stale fumes of beer.

Jack's heart was heavy with apprehension. He went up to the left by the ladder on the wall. The bed there had been used too, and a man's coat was thrown across it. There it was—the house he had built—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house.

Mrs. McMann, a few minutes later, related the interview to her friend Mrs. Turner. "He bounded in at me," she said, "just when I was putting the potatoes on to boil. 'Where's Helmi?' he almost shouted at me, without even bidding me the time of day. 'How could I tell him where Helmi was?' 'She's not here,' I said, 'and I don't know where she is—she's been gone over a month,' I says. 'Where did she go?' he said. 'To Edmonton,' I said.

"Why did she go?" he stormed! Didn't she know I was coming back? 'Where did she say she was going?' 'Well, Helmi never confided in me, as you know,' I said.

"Lend! I couldn't tell him why she went. I never was one that could talk about those things. I don't believe any of my people could. The Weekes were funny that way.

"Where's Sim?" he said at last, staring at me as if he didn't see me. 'Sim had an accident in the mine, and went out the last train.' 'Well, look here, Mrs. McMann, who has been stayin' in my house,' he says, 'can you tell me that?'

"I knew very well a party of hunters had spent the night there—reveling from town out deer shooting—drunk as fools, too—I wouldn't let them in. 'I certainly have no knowledge of what's been going on in your house since you've gone,' I said, very stiff. Mr. McMann says that there's no one could be siffer than I could when I wanted to be. 'Do you know of anyone having stayed there?' he said. 'Yes,' I says, 'the crazy Englishman from English Creek was there for a week, about six weeks ago.'

"Lord, I thought he was going to strike me—but none of the Weekes was ever cowards, so I just glared back at him stiff as pork. I could give him eye for eye, let me tell you. He went out at that and over to the office. I think maybe he expected a letter from Helmi, but if she's written to him it's more than she's done for any of us. Gone over a month and not a word from her. And I was good to that girl, though I ain't the one to tell what I've done for anyone. Now, if Jack Doran had come in a better spirit he might have heard more from me. I'm funny that way, anyone can lead me, but strong horses can't drive me."

"Two days just come for Mrs. Doran," said the postmaster, handing them to him. "Glad to see you back to us again, Jack. People come and go at Eagle Mines—come and go—it makes it hard for a postmaster."

Jack went back to his own house—he must get under cover—the eyes of the people he met hurt him—they bored into him, twisting, turning, screwing, gouging, red-hot and sharp as ice. He must get somewhere where he could shut the door.

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

In his own house, Jack sat with the letters in his hand. Helmi had gone, she had not waited. He was a month late, but Helmi should have waited. Where had she gone?

The letters might tell him—it would be better to know. He opened the first one and found it contained a Government cheque for fifteen dollars payable to Helmi Doran, and it said it was on account of Pte. Crowe's wages. Jack stared at it without understanding.

The other letter was from Montreal. "Dear Helmi," it said, "I have made over my separation allowance to you, and I hope you will accept it from me. You are the only person in Canada who has any claim on me. I have paid every other person in Canada for everything they have ever done for me. You, dear Helmi, I can never pay in money, for you gave me the most precious thing a man can have who goes out as I am going, a memory of something tender and sweet. I have made my will, leaving everything I have to you. I will never forget your last words to me. Nobody ever spoke to me like that before. Will you write to me, Helmi?"

Ever Yours,
Arthur Warner."
(To Be Continued.)

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine
For Nervous, Sleepless
Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the most distressing ailments of children.

"Baby's Own Tablets are one of the best remedies for children's ailments," says Mrs. J. D. Holliday's Asthma Remedy. Now he knows how needless has been his suffering. This medicine remedies every ailment of all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesale.

Cap Fliter Was Ambitious
Not satisfied with his first record for night flying, Captain Kato, of the Japan aviation school at Tokyo, immediately new again and established a new record. He hopped off at 5:30 o'clock in the evening and broke by 35 minutes his previous record of six hours in the night air. He immediately flew again and remained up until 9:25 o'clock in the morning, beating his previous record of the night by three hours. Most of his flying was in dense fog.

Could Hardly Live For Asthma
writes one man who after years of suffering has found complete relief from his asthma by using the J. D. Holliday's Asthma Remedy. Now he knows how needless has been his suffering. This medicine remedies every ailment of all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesale.

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

WHY "NEW TEETH FOR OLD"?

Perhaps you were wondering why little sonny had to lose his "baby" teeth and have them replaced with new ones.

Why, you asked yourself, do they not remain permanently and develop in size during the growing years just as do the ears and eyes?

"Because they become decayed" you say; but not necessarily so since tooth decay is a disease and is therefore abnormal and preventable; and for that matter, when you lose a tooth through decay at six and twenty, does a new tooth replace it?

But console: You have seen a little sapling grow to be a big tree—"large oaks from little acorns grow"—but did you ever hear tell of a small pebble growing to become a large stone? Not likely so, and for obvious reasons, for, as you know, the true is of organic matter, while the stone is of inorganic.

Obviously too, sonny's little jaw has no room for the larger teeth that he will need when he is fully grown.

So unlike the potatoes that "from little ones do big ones grow" we have instead, "new teeth for old."

These baby teeth then serve temporarily for mastication until the maxillary or jaw bones are sufficiently developed to accommodate the larger permanent teeth of adult age.

They are mother Nature's expedient, as it were, a good expedient too, if given half a chance.

Living, though do not live
If mercy's spring run dry.

What Heaven has lent thee wilt thou freely give,
Dying, thou shalt not die.

He promises ever so:
To thee his lips repeat.

Behold, the tears that soothed thy sister's woe.

Have we not seen Master's feet,
—Oliver Wendell Holmes.

The final test of religion at that last day is not religiousness, but love; not what I have done, not what I have believed, but how I have discharged the common charities of life. By what we have not done—by sins of omission—we are judged. It could not be otherwise. For the withholding of love is the negation of the spirit of Christ, the proof that we never know Him, that for us He lived in vain.

—Henry Drummond.

No matter how deep-rooted the corn may be, it must yield to Hollo-way's Corn Remover if used as directed.

Recipes For This Week
(By Betty Barclay)

CREAM OF ASPARAGUS SOUP

Wash each stalk of asparagus carefully with a vegetable brush to remove all grit. Then cut in small pieces (using all but the very tough parts). Cook, covered, until the asparagus is tender, in enough water to cover. Add salt to taste just before the asparagus is done. Allow two cups cooked asparagus and cooking water to 2 cups medium cream sauce (2 cups milk, 4 tablespoons flour, 4 tablespoons butter). Season and serve hot.

Note: The less tender part may be cooked longer and put through a sieve. If desired, the tops may be used for salad).

FRUIT BLISS

2-3 cup sugar.
1-3 cup water.
2 egg yolks.
4 tablespoons lemon juice.
4 red color paste.
3 cups fruit.
Boil sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serves 6.

Enlisting Their Sympathy

Counsel for the victim of a motor-vehicle accident: "Gentlemen of the jury, the driver of the car that has been going only four miles an hour. Think of it! Think of the agony of my client, the victim, as the car drove over his body at four miles an hour!"

"I see you are getting all the girls off your hands."

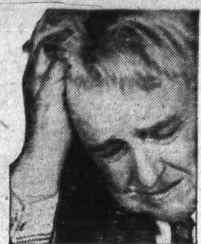

"Yes, but the worst of it is I have to keep their husbands on their feet."

THERE is nothing quite equal to Aspirin for all sorts of aches and pains, but be sure it is Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box when you buy it!

Salt Essential To Health

In One Of The Four Prime Necessities Of Life

Salt is necessary to life and health. Deprived of salt, disease and ultimate death would follow. In certain parts of the world where salt is scarce, salt is used in lieu of cash in trade and barter. Salt ranks with water, bread, sleep as one of the four prime necessities of life. A medical man states recently that the chronic ill-health of many people is due to their underconsumption of salt; they take too little in condiment form, and even less in vegetables, such as cabbages, which contain valuable salts.

Look at your salt-cellar. Each white grain of glistening salt is a perfect crystal. In a tiny pinch there are thousands. They will pass to every part of your body—blood, brain, tissue, and bones—and do their health-keeping work.

Wrong Ideas Of Sin
More should be written about the pleasures of virtue. The old theology gave the impression that sin is delightful and that those who forego give up what is most thrilling in life.—American Magazine.

Minard's Liniment For Toothache.

"YOU CAN BUY A BIGGER CAR BUT NOT A BETTER ONE"

THE success of the new Oldsmobile is easy to understand when you know why this new six was created and how it was perfected.

It was created specifically for those whose preference is for a truly fine automobile. It was developed to standards of quality, style and value that made no compromise with price. It was proved by over a million miles of relentless testing. And from the day of its announcement, this Oldsmobile has enjoyed a rapidly growing recognition as the fine car of low price.

Its new high compression engine—embodying the most advanced features of design—provides true fine car smoothness, snap and speed. Its insulated chassis and silenced interiors create true fine car environment. Its modish Fisher bodies reveal a new expression of fine car beauty; while such features as Lovejoy Hydraulic Shock Absorbers and radiator shutters contribute the final touches of fine car luxury.

Naturally, all this in a car selling for \$1165 has kindled genuine enthusiasm among car buyers of taste and discrimination. They have inspected it—driven critically—and said, "You can buy a bigger car, but not a better one!"

The death list of the Mather, Pennsylvania, mine disaster now totals upwards of 130.

Tenders have been invited for the grading of the highway from Macleod to Pincher Creek.

Local and General Items

Jasper Park Lodge was officially opened for the season on Monday.

There will be a general election in Newfoundland this coming fall, in which campaign the Liberal party will be headed by Sir Richard Squires.

An exchange remarks: Sales of the Bible have shown a great increase during the last five years. Lawyers defending murderers have to have some sure-fire quotations.

Attorney-General Lyburn has instructed the police commissioner to have his force enforce a stricter observance of the Lord's Day Act and to stop so-called work on Sundays. Over exertion, such as golfing, tennis, tire repairing and changing, pushing cars through mud and holding down excitable flappers will not be interfered with.

IN MEMORIAM

In loving memory of James Patterson, who died May 23rd, 1927.

"They die in Jesus, and are best;
How calm their slumbers are:
From sufferings and from woes released,
And freed from every snare,
Their tongues, great Prince of Life, shall join
With their recovered breath,
And all the immortal host ascribe
Their victory to Thy death."

Ever remembered by his family.

Good thing some cars don't cost as much as they run like.

Blairmore has no less than eleven ice cream parlors and restaurants.

A number of dances are billed to take place throughout this district tonight.

Mr. and Mrs. Charles Russell were motor visitors here from Calgary during the week.

We found the remains of a rat in our basement this week. He died from an overdose of old time.

130,000 Loch Leven trout fry are being placed in the Raven and Beaver rivers in the Red Deer district.

The Knights of Rhythm will stage a dance in the Victoria Hall at Fernie on the night of Wednesday next, May 30th.

Somebody picked up my pearl-handled jackknife in the office of the opera house. Kindly return same to W. A. Beebe.

Frank Zilli, who left here about six years ago for his home in Italy, has returned. Frank left the family in the old country.

Mrs. P. Chardon and daughter Madeline returned Saturday morning from Lethbridge, where they had been attending the musical festival.

The world's greatest funny pictures, Charlie Chaplin in "The Circus," will appear at the Bellevue Theatre on Tuesday and Wednesday of next week.

A very pleasant evening was spent in the Lodge Hall on Friday last, when the Knights of Pythias and friends were entertained by the members of Greenhill Temple, Pythian Sisters.

Since our last issue, we are advised by Miss Leitham that to her knowledge she has never been married, and that the reports contained in the Lethbridge Herald and The Blairmore Enterprise were incorrect.

The Claresholm Fish and Game Association want the regulations changed to reduce the limit for trout to fifteen per day, with a provision that no fisherman may have more than 45 trout in his possession at any one time.

According to Frank Wheatley, president of the Mine Workers' Union of Canada in District 1, eight mines in the northern part of the province have signed agreements in which complete recognition of the Canadian union is conceded.—Druntheller Mail.

Mr. L. B. White, of Coutts, who has been relieving Mr. H. H. Griesbach here at the customs office, while the latter was doing his spring seeding, leaves for home this week end, accompanied by Mrs. White, who spent a week or so with him here.

The Fernie Elks are leaving no stone unturned in their arrangements for a big time at the B.C. provincial convention to be held in Fernie on June 18 and 19. A monster carnival will be held on June 11, 12 and 13, so that June promises to be a busy month for the Fernie "Bills."

A provincial conference of Elks is being held at Lethbridge today, with Grand Exalted Ruler Gerald Sims, of Ottawa, in attendance. Four carloads of antlered folk left Blairmore long before the sun arose for the convention. Others, we understand, have gone from Pincher Creek and Coleman.

Looking at the girls who walk along the streets, leads one to believe that it is no longer bad form to have one's face washed and not covered with kalsomine.

Mary had a little limb;
'Twas clothed in colors bright.
And everywhere that Mary went
That limb was sure in sight.
